## **A SOUL CURRENCY® WELCOME...**

Welcome to Soul Currency®: Investing Your Inner Wealth for Fulfillment and Abundance. These classes have been designed to show participants how to stay in the energy of the soul, rather than dwelling in the energy of what is being created. In other words, we will dwell on our soul's connection to Spirit, rather than on its effects in the world. We will move from the inner to create the outer and know that we barely have scratched the surface of the good that can flow to us.

Often, we are caught up in a material world that seems more real than our spiritual world, a world where paper currency seems to be of more value than spiritual intentions, and where people who don't seem to be overtly spiritual appear to be rich and prosperous, while those who choose to be conscious find themselves seeking to have more. In this class, you will have the opportunity to learn that the Source Energy of love, not money, is the currency of the soul. You will see that the Source Energy takes on many forms, including financial currency and other symbols of material wealth.

In this class, we use some of the terminology of finance and business, typically associated with value, to explain our inner spiritual value. The Soul Currency® method provides a bridge to unify the duality that we sometimes feel between the spiritual world and the material world. The challenge is to see and recognize the invisible effects of the soul's currency effortlessly and ceaselessly flowing and converting the energy of love into its various material, emotional, and inspirational forms – just as money can have a multiplying effect when it is invested in real estate or a college education.

If we could see the invisible energies that emanate from our Spiritual being -- energies such as love, creativity, joy and much more -- we would see how our inner spiritual energies create our material world. At the very core of our spiritual being is our soul's connection to Spirit itself, and it is this soul energy that allows us to clearly express Spirit. Most of us have been unconscious about where our good comes from, getting only glimpses of it from time to time.

By truly understanding that there is One Source that is expressing and co-creating through us, we discover that everything that flows into our life is an answered prayer. With each answered prayer, we have the opportunity to deepen our relationship with Source and, in turn, find enrichment in life that fills us to overflowing.

## The Magic of Tithing

By Emmet Fox

The secret of demonstrating prosperity in the spiritual way - and on no other basis can your prosperity ever be secure - is to understand, that is, to know to the point of realization, that the one and only source of your supply is God, and that your business or employment, your investments, your clients or customers, are but the particular channel through which that supply is at the moment coming to you from God. Now the practice of tithing with the right, that is to say the spiritual, motive, is really the concrete proof that you have accepted this position, and the invariable consequence of that acceptance is prosperity. It is quite easy now to see the difference between this, the spiritual practice, and the material and useless practice of putting aside the tenth part, often grudgingly, in the hope of making a good investment. As an expression of what is felt to be spiritual justice, tithing is an inevitable success; as a selfish investment, it is doomed to failure.

. . . Some think that because they are in pressing difficulties it is impossible for them to tithe at the present time, but they propose to do so as soon as circumstances improve. This is to miss the whole point - the greater the present necessity, the greater the need for tithing, for we know that the present difficulties can only be due to one's mental attitude (probably subconscious) and that circumstances cannot improve until there is a change in the mental attitude. True spiritual tithing will be an indication that this attitude is changing, and will be followed by the desired demonstration. Tithing being on the percentage basis, the less one has, the less he gives, and so that problem adjusts itself.

The answer to the question of how often a tithe should be paid is quite simple. The correct time to pay it is upon the receipt of the income, whether that be monthly, weekly, half-yearly, and so on. In a general way, it is better to pay small sums frequently than larger sums more rarely, but here no definite rule can be given . . .

The connection between tithing and prosperity is, after all, but a particular expression of the general law that what we are to the universe, that will the universe be to us; that what we give out, whether it be generosity or parsimony, that we shall receive back; that like attracts like; that whatsoever a man soweth, that shall he also reap; and that no man escapes the Law.

*Emmet Fox (1886-1951) was a scientist, philosopher and outstanding spiritual teacher who regularly addressed large audiences during his lifetime. His books (many of which were published after his death) have been a source of inspiration to millions.*

## **How to Pray Using Spiritual Mind Treatment**

IN THE WORDS OF ERNEST HOLMES

The purpose of prayer, or spiritual communion, is to seek conscious union with the indwelling Presence. The basis for spiritual mind treatment is a conviction that man's life is pure Spirit. The practitioner recognizes this Spirit at the center of his patient's being. This Presence is more than a manifestation of God; it is God in that person. God is all in all. God is all power, all presence and all life. Life at the center of the patient's being is as perfect as it ever can become.

Effective prayer, creative thought, should be a matter of declaration and acceptance, not a petition, a supplication, a begging. If we petition or beg, what are we doing but attempting to make God prove that He is God! We would appear to be questioning God, expressing doubt as to His nature and reality. There would appear to be a complete lack of faith on our part.

The word we speak, the idea we declare, the thought we desire to become thing, must spring spontaneously from the heart, be vitally known and experienced in every corner of our mind, be vibrantly felt with every part of our being. Spiritual communion is deeper than intellectual perception. The prayer of the intellect may be perfect in form, but it must be warmed and colored by feeling and conviction. We must cast off all intellectual doubts if we would enter into a deep, spiritual communion with Reality.

Prayer is a movement of consciousness on the universe itself. It is the law of mind in action. Whenever our acceptance makes it possible there will be an answer to our prayer which mathematically corresponds to the use we have been making of this law of mind. Prayer is a thought, a belief, a feeling, arising within the mind of the one praying. This feeling becomes a complete belief and a perfect acceptance when the mind is most completely in tune with the Infinite. The mind is the most completely in tune with the Infinite when the emotions are the most constructively aroused.

The highest faith comes from the greatest spiritual awareness. When prayer removes distrust and doubt and enters the field of mental certainty, it becomes faith and the universe is built on faith.

## Preparations for Treatment

Sit comfortably relaxed (straight, but not tense), feet on floor, hands resting lightly in lap, eyes closed. Clear the mind and calm the emotions by repeating an affirmation that is helpful to you personally.

When you are quiet within, you are ready to take up THE FIVE STEPS IN GIVING A SPIRITUAL MIND TREATMENT, which are as follows:

### 1. RECOGNITION:

Consciously expand into an awareness of Absolute Love. Know that Absolute Love has no opposites. It is Unity. It is Omnipresent. It is creative intelligent Energy.

### 2. UNIFICATION:

*Realize* that you exist *within* an environment of Absolute Love, and that this Energy is always expressing through you.

### 3. SPECIFICATION OR AFFIRMATION:

State that which you desire is so NOW, IN MIND. Remember that you treat only your own consciousness (which is within God-consciousness), to lift it to the realization of the perfect pattern of the thing you desire.

### 4. ACCEPTANCE:

Accept that your desire is already accomplished. Know that Absolute Love has no opposition to Itself as It manifests through you. Give thanks that it is already so.

### 5. RELEASE:

Let the Creativity of Absolute Love express your idea. Release it. Let God do it.

## **I AM THE SOURCE OF ETERNAL FLOW**

Knowing that there is One Eternal Source of All  
Love and Divine Supply, I know that my Life  
Is that One Life and that All Supply and Abundance  
Is now Mine to the extent I allow it in my Life.  
I am open to the Unlimited possibilities of Love  
Flowing as money and prosperity,  
Of creativity manifesting as successful  
And profitable projects and satisfying work.

No longer do I allow doubt and unworthiness  
To be a part of me, for I now know the Truth  
That I am Spirit manifest – and that I am capable  
Of co-creating and directing a Life full of Love  
And a Life flowing with joyfulness and surplus.  
I am abundantly self-sufficient in all my needs  
And I live from the higher Truth of being  
In the work I do, and in my loving interactions  
With all whose lives I touch.

Giving thanks, for it is gratitude that connects us to  
And reminds us of our God nature.  
And knowing that my words have power,  
And are already working in my life,  
I release this into the Universal Presence.

And so it is.
